NOTE 1: The City acknowledges that the best current available information indicates that at some indeterminate point in time the following future trail segment will probably be required to be constructed. The exact timing of the construction, the precise location of the improvements, and the scope of the work has not been determined at the time this plan was approved.

It is the current Council's intent to acknowledge that prior to the determination of precise alignments and construction of these improvements, the need for the improvements be established, as well as all the detailed engineering and statutory studies be performed.

Public input will be received in accordance with the statutory requirements at that point in time.

NOTE 2: In the event the property is sold and developed, trails in this area will need to be constructed to the appropriate standards of the day and connect to the existing termination points.

DISCLAIMER: Proposed park and trail facilities shown on this plan are based on the most recent adopted version of the Comprehensive Plan [2010] and Ultimate Streets Plan [2010]. Proposed park and trail facilities are subject to change based on any future updates to the adopted Comprehensive Plan or Ultimate Streets Plan.
