THE MAYOR’S COLUMN

One of the most misunderstood financing mechanisms used by communities across Iowa to stimulate economic development is Tax Increment Financing, commonly referred to as TIF. (TIF allows a city to collect increased property taxes from development to invest in economic development.)

The West Des Moines City Council recently retired the Jordan Creek Urban Renewal Area (URA), an area which, during its 20-year life span, provided one of the best examples of how a city should use TIF. As this milestone passes, it provides an opportune time to review its achievements.

Residents of West Des Moines have had an opportunity to watch city leaders use this Urban Renewal Area and the associated TIF to fund extensive public infrastructure, which allowed land to be developed that not only provides a variety of shopping, dining and hotels for the city, but also serves as one of Iowa’s more significant entertainment destinations and employment centers. The area draws visitors and provides substantial tax revenue for the City, Dallas County and the Waukee Community School District.

The most common use of increment taxes by a city is to pay for public improvements within the URA, such as extending infrastructure (roads, sewers and water) to enable development. That’s exactly how West Des Moines used TIF when residents started to notice a new interchange on I-35, and six lanes of roadway on Mills Civic Parkway and Jordan Creek Parkway before the mall and all the surrounding restaurants and businesses were built.

When you look at the numbers, the land around Jordan Creek was worth about $14 million before it was developed. This $14 million represents the assessed value, which is the dollar value given to a property for the purpose of determining property taxes. Once the TIF-funded public infrastructure in that area was built and Jordan Creek Town Center opened, that land became more valuable. In fact, as of January 1, 2019, the group of properties in the URA was collectively valued over $700 million.

As soon as the valuation growth outpaced the amount the city needed to pay its debts associated with constructing streets and other public infrastructure, all excess tax dollars were released back to the other taxing entities such as Dallas County, the Waukee Community School District, DART, the Dallas County Hospital and DMACC. The massive amount of released tax dollars ($13 million was released in 2018 alone!) would not have existed for those entities but for the Jordan Creek area development.

Another financially positive outcome for West Des Moines residents is a dramatic rise in hotel/motel tax revenue. In 2004, just prior to the mall’s opening, the city received about $1.5 million in hotel/motel revenue annually. Today, the city is receiving over $4.4 million a year, a 294% increase in just 15 years! This money is used by the City to help fund the Greater Des Moines Convention and Visitors Bureau, Bravo Greater Des Moines, the Historic Valley Junction Foundation, tourism and recreational activities, local youth soccer, baseball and softball programs, economic development, public art, and a variety of WDM-based non-profit organizations such as the West Des Moines Historical Society and the Children’s Museum.

West Des Moines is very proud of the Jordan Creek Urban Renewal Area. It has been used in several case studies statewide as a positive way to use tax increment financing, proving that when used appropriately, TIF encourages development and provides significant benefits to an entire community.

FROM THE CITY MANAGER

Any idea when the first census took place? If you said 1790, you know your census history!

Every ten years, the U.S. Constitution requires the federal government to conduct a census of our nation’s population. The data collected by census takers is used by lawmakers to make decisions about who receives federal funding for our schools, hospitals, fire departments and roads.

Census results also determine the number of seats each state will have in the U.S. House of Representatives and how congressional and state legislative districts are defined.

In a growing community like West Des Moines, it’s absolutely essential for everyone to be counted so that we have a chance to receive the funding and resources we need for our residents.

In mid-March, all homes in the United States will begin receiving an invitation to participate in the census. The 2020 Census will be the first time people will be able to respond online, so it’s now easier than ever to answer the questions and share basic facts about your household.

If you don’t respond online or mail a completed copy of the form to the Census Bureau, a census taker will knock on your door and ask you to answer each question so that a completed questionnaire can be recorded for your household.

Because the census is so important to identifying needs and allocating resources, everyone is required by law to respond. And while you are required by law to participate, the Census Bureau also is required by law to protect your answers. Your responses are used only to produce statistics. No personal information is disclosed by the Census Bureau.

Census questions will ask you about how many people are living or staying at your home on April 1, 2020; whether the home is owned or rented; your phone number; the sex, age and race of each person living in your home; the relationship of each person in your home; and whether anyone in your home is of Hispanic, Latino or Spanish origin.

During the 2020 Census, the Census Bureau will never ask you for:
• Your Social Security number
• Money or donations
• Anything on behalf of a political party
• Your bank or credit card account numbers

The Census Bureau also will not send unsolicited emails to request your participation in the 2020 Census. You’ll receive an invitation to participate in the mail, and if you don’t complete the form or respond online, a census taker will follow up in person at your home.

If someone visits your home to collect a response, first check to make sure they have a valid ID badge that features their photograph, a U.S. Dept. of Commerce watermark and an expiration date. If you still have questions about their identity, you can call (800) 923-8282 to speak with a local Census Bureau representative.

Remember that by law, all the information you share is confidential, and the data that is gathered will help determine how approximately $675 billion in federal funding flows into states and communities each year.

So please, tell your family and encourage your friends, neighbors and coworkers to participate. The Census truly is a patriotic duty that helps the federal government meet the needs of our communities.

Community Compliance Specialists will be working with residents to help ensure that issues not in compliance with City Code are addressed. Our residents take pride in our beautiful City. Our Community Compliance Specialists work with residents to help ensure that issues not in compliance with City Code are addressed.

The following are some issues the Community Compliance Specialists will be looking at to ensure a well-kept community.

**Trees and shrubs must have vertical clearance of:**
- eight feet (8') between the surface of a sidewalk, trail or other pedestrian way and the lowest branch, and
- fourteen feet (14') from the surface of a street to the lowest branch.

**Junk in general should be properly removed from the property and never placed on the right of way until the day prior to a scheduled pick up (with appropriate solid waste stickers).**

Dead and dying ash trees are a very significant risk, not only to the property owner, but to anyone or anything within reach of the tree’s canopy. Since all uptake of water has been shut off, the wood dries out quickly and becomes extremely brittle. Branches will fall in perfectly calm conditions creating potentially devastating impacts. Considering the level of infestation that currently exists in WDM, all untreated ash trees will likely be dead within 2-4 years!

It’s important to note that dead, dying and/or diseased trees on private property that pose a risk to neighboring property can be deemed a nuisance and their removal can be required by the City. Within the next year, it’s imperative for property owners with ash trees not currently being treated, to have their tree(s) assessed by a private licensed professional and then either treated or removed.

For more information, please contact Mark Brewick at 222-3441 or Mark.Brewick@wdm.iowa.gov

**Inoperable/Obsolete vehicles. All vehicles must have current plates and be able to start and travel down the road. They must also be free of broken windows and have air in the tires. Vehicles may only be parked on a hard surface. If vehicles do not meet all these requirements they must be placed in a garage or hauled away.**

Remarkably, in 2019 emerald ash borer (EAB) has been confirmed in just one additional county in Iowa, Cass County. Since the first Iowa detection in 2010, the invasive, tree-killing pest has spread to 66 Iowa counties. EAB will likely become the most destructive tree pest ever in North America. The larvae of the insect feed on live tree tissue, damaging the tree’s ability to transport water and nutrients. When populations get high enough, previously un-infested trees can die in 2-4 years.

Populations of EAB in West Des Moines, as well as most of the metro area, are rapidly increasing with numerous dead trees observed in 2019. In addition, countless more were seen that are clearly in an advanced stage of decline.

**Eye On West Des Moines Photo Contest**

Photographs must be entered in one of four categories that represent life in the City of West Des Moines:
- Living – Activities/Events
- Living – Plants
- Seasons in WDM
- Living – Wildlife

For more information, please contact Mark Brewick at 222-3441 or Mark.Brewick@wdm.iowa.gov

All submissions must be received by June 5, 2020, at 4:00 p.m.

**Looking forward to spring?** Of course! As spring approaches, our focus will again turn to taking care of lawns and open spaces. Please remember that lawn care products applied by residents or lawn care companies can overspray onto streets, driveways, sidewalks, and alleys. Rainfall washes fertilizers, pesticides, and herbicides off these paved areas and into the storm sewer where it directly enters our streams and rivers, causing pollution.

Spring Cleanup is available to all West Des Moines residents who are eligible for City provided solid waste collection. Appliances are not accepted.

If you’re unsure whether an item is accepted, call Metro Waste Authority’s garbage hauler, Waste Connections, at (515) 265-7374 and ask!

Metro Waste Authority wants to make sure it’s easy to properly dispose of any items that can’t be donated or don’t fit in your garbage cart.

The most convenient way to get rid of large items is to have them picked up from your curb. When an item doesn’t fit in your garbage cart, large item or extra trash stickers make sure they get from your front yard to the landfill.

**What Stickers Do I Buy & How Many?**

Residents on City service for trash can buy orange Metro Waste Authority stickers at area grocers. Large item stickers are $5, and extra trash stickers are $1. The item(s) you want to get rid of determine how many stickers you need to purchase.

Examples of items that can be disposed of with large item stickers include carpet rolls cut to 4’ long x 18” diameter, couch, desk, bed or toilet. Extra trash stickers cover a bag or box of trash under 30 pounds or kids’ toys. Additional examples can be found at www.WhereItShouldGo.com.

**Spring Cleanup**

Mark your calendars now for Spring Cleanup, June 1 – 5, 2020. This is an opportunity for residents on City service to get rid of items at the curb that would usually require a sticker.

For more information about safe, smart disposal and recycling options, visit www.WhereItShouldGo.com or call 515.244.0021.

**WATT to do with Batteries**

In the era of gadgets and technology, almost everything we use has a battery. Cell phones, laptops, tablets, game consoles, power tools, cameras, and more. Not all batteries are the same; knowing how to dispose of each type is important for the safety of you and those around you.

**Rechargeable/Lithium**

Did you know rechargeable batteries contain hazardous material that is highly flammable? That’s right! When the shell is cracked on these types of batteries, they are susceptible to moisture and can easily start on fire.

Does your battery take a charge? If it does, this is a hazardous battery. Common gadgets that have hazardous batteries are cell phones, laptops, cameras, and power tools. Drop off your rechargeable batteries at one of the hazardous waste facilities in Grimes or Bondurant free of charge, or for a $25 fee you can have batteries and other hazardous waste picked up right at your house! Sign up for this houseside collection program at Metro Waste Authority’s website, www.WhereItShouldGo.com.

**Traditional alkaline (single use) batteries** may be thrown in your garbage or can be recycled for $1 per pound at the Metro Hazardous Waste Drop-Off in Bondurant. You can also keep an eye out for stores that offer take-back programs.

For more information, visit www.WhereItShouldGo.com/hhwhouseside or call 515.244.0021.
