

## City of West Des Moines - Engineering Services Department Notice of Ashworth Road Street Resurfacing

**Purpose:** To resurface Ashworth Road with asphalt from curb to curb

**Location:** Ashworth Road from east of Valley West Drive to 21<sup>st</sup> Street

**Estimated duration:** September 16<sup>th</sup> – September 19<sup>th</sup>, September 20<sup>th</sup> (rain delay)

### Wednesday, September 16<sup>th</sup> – Thursday, September 17<sup>th</sup>

Des Moines Asphalt and Paving will be closing Ashworth Road from Valley West Drive to 21<sup>st</sup> Street to complete asphalt milling and patch work. For those of you with driveways on Ashworth Road, you **will** have access to your driveway on these days. The access point for you into the project, will be the 28<sup>th</sup> Street intersection on the north side of Ashworth Road. This is also shown on the attached map. There will be a flagger at this location to assist you entering and exiting the project. You will experience short durations when equipment will be blocking your driveway but the contractor will facilitate you entering and exiting your driveways as quickly as possible. During the evening and overnight hours, the barricades will be left staggered for you at 28<sup>th</sup> Street so you can gain access to your driveways in the non-work hours. Please see the attached map showing the limits of the project.

If you need to cross Ashworth Road during these two days, Vine Street to 32<sup>nd</sup> Street will be open and 23<sup>rd</sup> Street will also be open to crossover.

### Friday, September 18<sup>th</sup>

Des Moines Asphalt and Paving will have all side streets closed to pave the connections to Ashworth Road. During this time, access to all side streets will be **CLOSED TO ALL TRAFFIC**. There will be a couple hour window when 28<sup>th</sup> Street will be closed to pave asphalt and you will not be able to drive on it. The flagger will assist you to the next available side street to enter Ashworth Road to gain access to your driveway. The crossing of Ashworth Road at Vine Street, 32<sup>nd</sup> Street and 23<sup>rd</sup> Street will be closed on Friday and Saturday.

### Saturday, September 19<sup>th</sup> Starting at 6:00AM

Des Moines Asphalt and Paving will be implementing a full road closing of Ashworth Road from Valley West Drive to 21<sup>st</sup> Street to pave the top layer of asphalt. During this time, Ashworth Road will be **CLOSED TO ALL TRAFFIC** and you **WILL NOT** have access to your driveways until approximately 6:00PM or when the asphalt has sufficiently cooled that vehicles will not damage it.

**This full closure is expected to last one day from 6AM–6PM.**

You will need to utilize the side streets for parking during that time. **Please make sure your cars are out of the driveway by 6AM.** Please allow some extra time in your schedule to accommodate any minor delays you may encounter.

If it should rain on Saturday September 19<sup>th</sup> the construction will take place the following day on Sunday, September 20<sup>th</sup> starting at 6:00AM.

WDM Emergency Services will be notified of the road closure and will accommodate emergency response as necessary. We have been coordinating with the WDM Schools regarding the impacts to the bus routes.

If you have any questions, you may speak to Brian Beard with Des Moines Asphalt at 515.240.0209. ISG is an engineering consultant company that was hired by the City of West Des Moines to perform design & construction inspection on this project. ISG will be on-site while the contractor performs the work. You may contact them if an issue arises and requires immediate attention.
